# EMBEDDED HR THAT ACCELERATES SCALE

SkyFi boosts hiring velocity and operational maturity with Amplēo HR

## INTRODUCTION

SkyFi, a high-growth Earth intelligence startup, needed to scale quickly without the burden of building a full-time HR team. With big goals and limited bandwidth, they turned to Amplēo for embedded HR support that could move fast, integrate seamlessly, and help them hire the talent needed to deliver on their mission.

## CHALLENGE

As a fast-growing startup, SkyFi needed to hire quickly but didn't have the time, budget, or clarity to build a full HR team. The question was: hire internally or bring in an expert partner? Amplēo HR made the choice easy.

## SOLUTION

Amplēo HR embedded directly into SkyFi with an experienced HR partner who immediately felt like part of the team. From day one, they managed recruiting, onboarding, and offboarding—while also helping bring structure and consistency to people operations. The result: smoother hiring, faster ramp-up, and a more professional HR function ready to scale.

Key actions:

- Candidate sourcing and job descriptions
- Interview coordination
- Structured onboarding and offboarding
- Professionalization of HR systems

## CLIENT QUOTE

“It was everything I hoped for. Amplēo HR came in and nailed it—trusted, organized, and incredibly capital efficient. Within a day, we saw the difference.”

— Luke Fischer  
Co-Founder & CEO, SkyFi

## RESULTS

- **Faster hiring** = faster product delivery
- **Structured onboarding** across departments
- **Expert HR support** without full-time cost
- **Immediate value**—impact seen within a day

## CONCLUSION

Amplēo HR gave SkyFi the expertise and structure they needed to scale—fast. With seamless integration and capital-efficient support, HR is now fueling growth instead of slowing it down.
